Chair

Sarah Blakelock (UK/Australia)

This panel discussion will evaluate the Global Tax Agreement – the Two-Pillar Solution, in practice, having regard to what is to come; the implementation, coordination and tax certainty aspects of the political agreement. An analysis of the viability of the political compromise will consider:

- Whether the Two Pillars are administrable?
- What will or can tax certainty look like?
- Can the Two Pillars be implemented?
- Is the Two-Pillar Solution robust to abuse?
- Can the solution be administered fairly?
- What coordination, if any is required?
- Whether the Two-Pillar Solution promotes stability in the international tax system?
