This webinar will assess the Two Pillar proposal from an African perspective in four key areas. The first part of the webinar will deal with known current difficulties with global proposals in an African context. African views on the Two Pillar proposal will be provided in the second part, while African responses (and potential responses) will be unpacked in the third part, including unilateral tax measures (and ATAF's DST model for Africa). Summative remarks will be provided in the fourth concluding part about the way forward for African fiscal authorities and industry in respect of these proposals.
